3rd status update T2T

Prithivi and Caspar

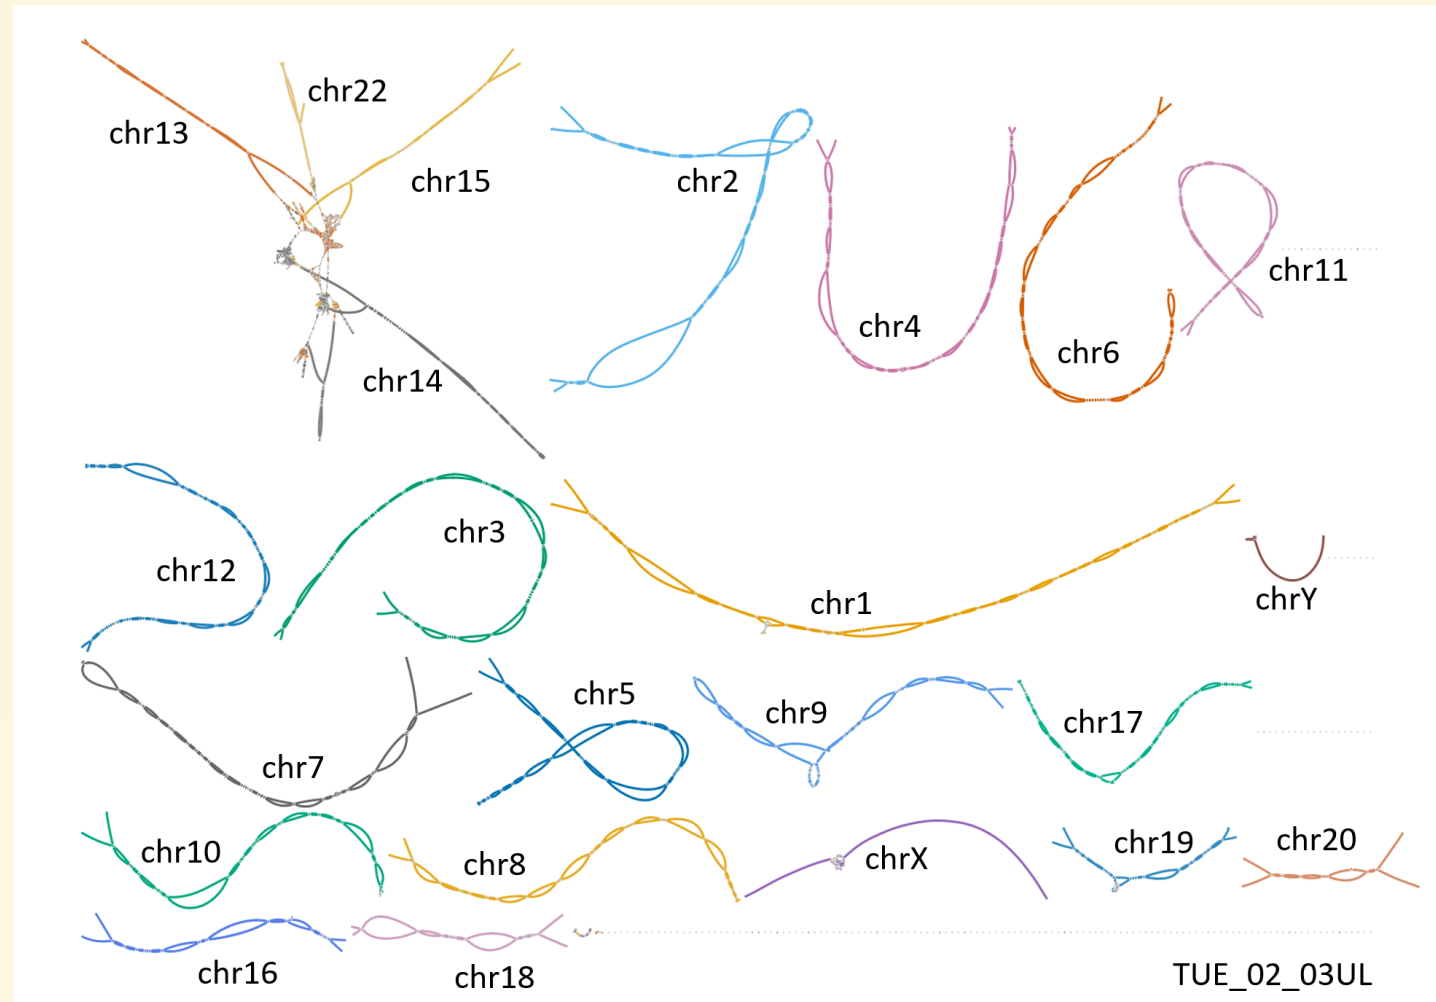

Sequencing updates T2T

- 1st APK Flowcell finished
- Should focus on completing Trio (Parents) for first sample. Normal LSK is enough.
- Need to improve throughput

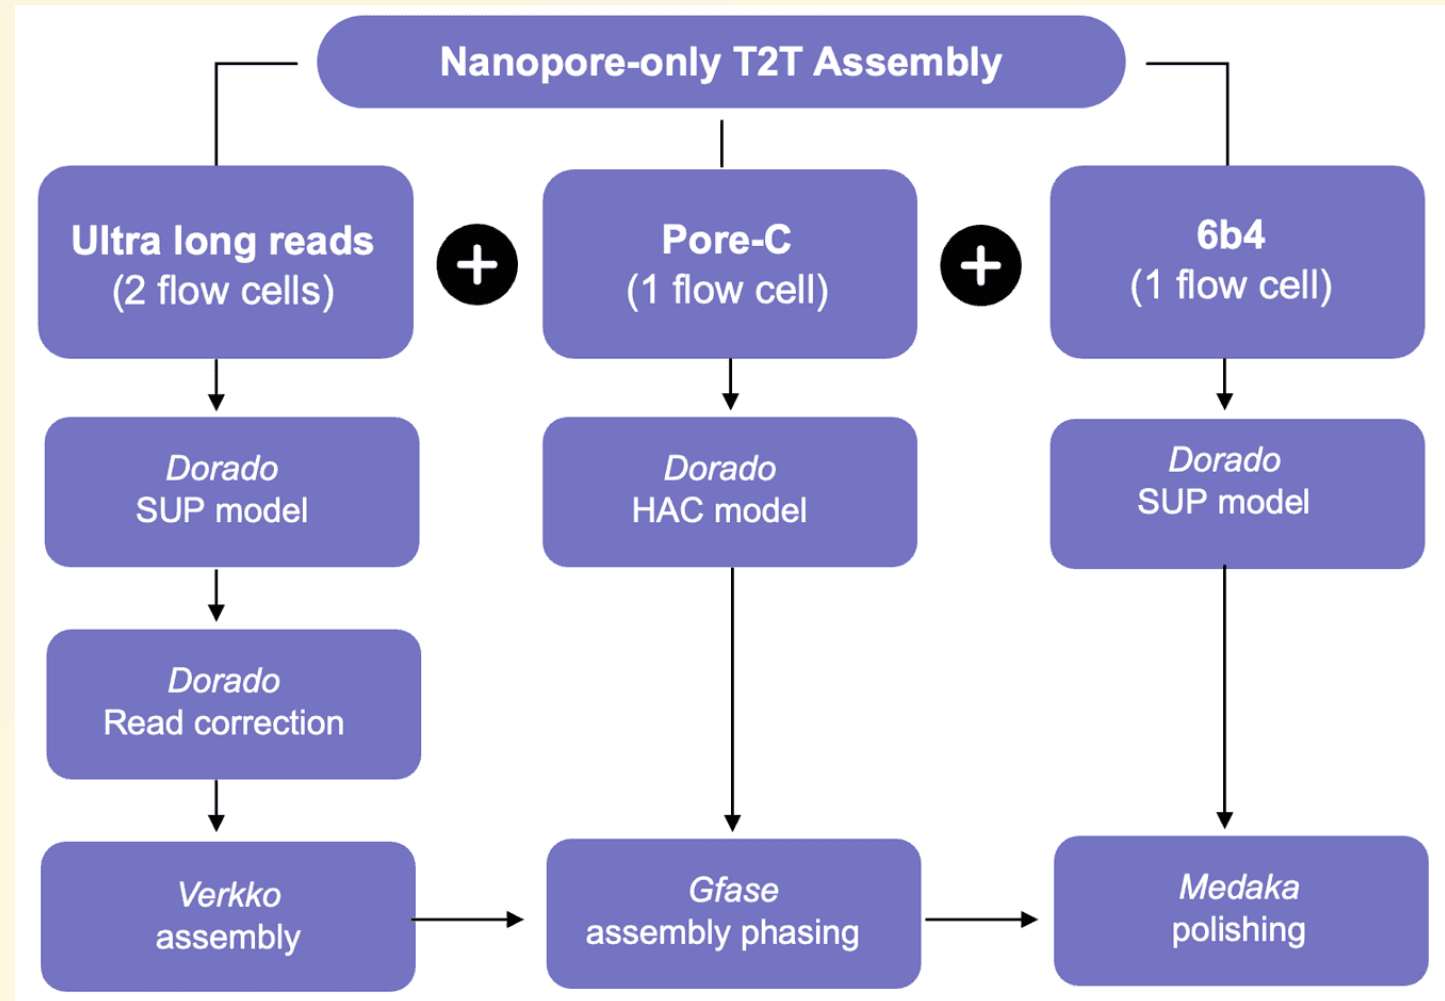

Pipeline updates

- Assembly graph with chromosome colours

Pipeline updates

- APK Polishing integrated

APK accuracy improvements

TUE02 compared against HG002 GIAB

	assembly bp (diploid)	QV	Error rate
unpolished	6102521769	33.13	0.00049
polished	6068356375	33.16	0.00048

No visible improvement in QV/Error rate might be caused by different samples HG002/TUE02 (SNVs expected).
